ISM Becomes Newest Data Provider to ISNetworld

Lafayette, LA, September 17, 2003 – International Safety Management, Inc. (ISM) has reached an agreement with ISN Software Corporation (ISN) as their newest Data Provider to provide on-site Health, Safety & Environmental (HSE) audit results to its clients utilizing ISNetworld's online data management site.

Jerome LeBlanc, President of ISM, said, "We evaluated several companies providing similar services prior to finalizing our agreement with ISN. We chose ISN over the other providers because of their professionalism and high level of commitment and customer satisfaction with the services that they offer. We feel that our association with ISN is inline with our corporate commitment of continuous improvement of the Contractor HSE Auditing Process."

For more information regarding ISNetworld, go to <http://www.isnetworld.com/>.

International Safety Management, Inc., is the premier on-site contractor auditing firm servicing the oil and gas industry. ISM provides validated HSE audit information to assist our clients with their internal Contractor HSE Management Programs. For more information, visit <http://www.ismsafetyauditing.com/>.
